

CRESCENT CHECK

HELPFUL HINTS

Crescent Check includes the following items in your Welcome Kit to help you accept checks for Electronic Check Conversion:

1. CRESCENT CHECK POINT OF SALE DISCLAIMER CARD

Federal banking regulations require that this sign be posted prominently at or near your point of purchase. The sign informs customers that their check will be electronically processed and a fee assessed if it is returned.

2. “YOUR CHECK IS WELCOME” DECAL

Crescent Check suggests that this decal be placed on the front glass door of your business to inform customers that checks are electronically processed.

3. CRESCENT CHECK “QUICK REFERENCE CARD”

The card explains the operational steps of the terminal to process a Check Conversion transaction, and terminal responses. Keep the card close to your terminal. If you need to contact Crescent Check, please refer to the telephone number on the card.

4. CHECK CONVERSION ACCEPTANCE RULES LETTER

The letter explains the basic rules for converting a check to an Electronic Funds Transaction (EFT). Please read the letter carefully. It tells you what checks cannot be converted, and the rules concerning authorization from the customer to convert the check transaction (receipt signature, etc.).

5. REMOVABLE WINDOW DECAL

Crescent Check is pleased to provide you with the latest technology for Electronic Check Conversion. If the Federal Reserve rules and Crescent Check acceptance policies are followed, your check acceptance experience will be fast, convenient, and without risk.

Crescent Check wants to be your best, and most reliable business relationship, and we will strive to earn the confidence you have placed in us, every day.
